Remote Backup Price Sheet

Remote Backup Pricing

Pricing is simple, affordable and based on three factors: the number of computers included in the backup, the amount of data protected and the number and type of premium features included.

1. Account Set-up Fee and License Fee

One-time set-up fee of \$50 per account or per business which includes the license for one computer. Additional computers may be backed up from this same account for a monthly license fee of only \$2.00 per computer per month.

2. DataPreserve Remote Backup Pricing

Pricing is based on the amount of data stored during the month as shown to the right.

3. Premium Features

DataPreserve Remote Backup also offers several premium features at a per device per month rate. See our website for more detail

Billing is transacted via credit card and charged monthly according to the amount of data stored. If a client exceeds a current level of data storage, he or she will be notified prior to the month-end billing.
