

## Remote Data Backup for Mortgage Brokers

### Reasons for DataPreserve Remote Data Backup

- 19 out of 20 small businesses that lose their computer data for at least 10 days go out of business
- 2000 laptops are lost or stolen every day
- It helps mortgage brokers comply with FACTA disposal rules by reducing the use of unsecured backup devices (tapes, thumb drive, zip disks, etc.)
- You gain peace of mind knowing your business data is safe

### What types of data should be protected?

- Client information on PCs and laptops including one-on-one service orientation data
- Loan origination software files such as Calyx® Point®, Encompass®, Genesis 2000®, and Contour®
- QuickBooks and other business DataPreserve
- Daily files any small business would need.

*"When DataPreserve said my data was safe, they were right. After the hard drive on my laptop failed I was able to do a 100% restore to my desktop. The service ran smoothly and the staff at DataPreserve was easy to work with."*
